Summary

UI/UX designer and Master of Computer Science student at the University of Sydney with experience across B2B SaaS, mobile and web product design. Skilled in user research, wireframing, prototyping and usability testing, with experience collaborating with developers and product teams to deliver user-centred digital products. Seeking graduate opportunities in UI/UX, product design and digital experience design across Australia.

Professional Experience

MotorPlatform *July 2025 - Current*
User Experience Designer *Part-time*

- Designed and iterated mobile-first user flows for a B2B SaaS automotive platform, simplifying high-frequency dealership workflows across web and mobile.
- Developed scalable UI patterns to improve consistency across complex operational touchpoints and support future product growth.
- Conducted competitor analysis and UX research to identify workflow pain points and inform product design decisions.
- Collaborated with stakeholders in an iterative design process to refine experiences and improve overall usability.

Cultiv8 Pty Ltd *January 2024 - December 2024*
Brand Design and UI/UX Design *Contract*

- Delivered end-to-end UI/UX design for 4 products across smart home, AI education, AR training and game asset management.
- Produced user flows, wireframes, prototypes and polished UI designs for web and mobile, reducing design time by 20%.
- Conducted user interviews and usability testing to uncover pain points, contributing to a 25% increase in user engagement and a 15% reduction in drop-off rates.
- Collaborated with product managers and engineers to translate designs into implementation-ready solutions.

Paxform Pty Ltd *February 2023 - June 2023*
UI/UX Design *Internship*

- Contributed to the 0-to-1 design of Paxform's digital check-in experience, covering branding, UX and UI design.
- Designed responsive interfaces for a queue-monitoring dashboard in Figma and Adobe XD, shaping information hierarchy and visual storytelling.
- Conducted usability testing with 10 participants on 3 key features and translated qualitative findings into user flow improvements.

Awards and Projects

Coding Fest 2026 — Project Showcase *August 2026*
Product, UX Designer

- Co-designed an AI emotional companion combining empathetic interaction, mood-aware support and healthier night-time habit nudges.
- Designed safety-aware user experiences for different emotional contexts, including escalation pathways for higher-risk situations.

Biomolecular Design Competition (Silver Project Award, 2nd Place Best Website)
Team Member, Designer *November 2024*

- Planned, ideated, and designed the project's website and web pages using **Framer**, enhancing visual communication and user engagement. (URL: https://hubblebubble2024biomod.framer.website/)
- Produced a participant introduction video and collaborated with a multidisciplinary team and mentors to deliver a polished presentation of the DNA origami nanostructure project, HubbleBubble, which was recognized with awards.

SUEDE Designathon 2024 (2nd Place) *September 2024*
Team Member

- Led a team of 4 in a 24-hour design challenge, conducting research and translating insights into a product concept addressing food waste recycling.
- Presented the final solution and key design decisions to a judging panel, earning 2nd place out of 30+ teams.

Education

Master of Computer Science University of Sydney (February 2025 - December 2026)
Weighted Average Mark with Distinction

Bachelor of Design Computing University of Sydney (February 2022 - December 2024)
Weighted Average Mark with Distinction

Design Methods

Skills	User Research, User Interviews, Usability Testing, Competitor Analysis, User Flows, Wireframing, Prototyping, Responsive Design
Design Tools	Figma, Framer, Adobe XD, Adobe Photoshop, Adobe Illustrator
Technical	HTML, CSS, Javascript

Language Proficiency

Language	English (Fluent), Mandarin (Native)
